***Information on Section 3 of the PACC-2011 Conference (7-9 Nov. 2011, Moscow, Russia)***

To: Robert Kennedy  
The Ultimax Group

Dear Dr. Kennedy,

The International Scientific Conference "Problems of Adaptation to Climate Change" will be held on 7-9 November 2011 in Moscow, Russia. General information about the Conference, its goals and objectives are presented in the first information leaflet (attached herewith) and at the Conference site (<http://www.pacc2011.ru>). During the conference the one of three sections was planned to be conducted as "Research of opportunities for climate stabilization using new technologies" (see details at <http://sites.google.com/site/geo3pacc2011>). The general themes being proposed for discussion at this section are introduced in supplementary information attached also.

Having in mind your interest and researches in the field of climate geoengineering we should ask you to consider possible participating at the mentioned Conference section 3 and inform us on your decision by June 10, 2011. We ask you, in case of your interest to make a presentation, to inform us on the title of your contribution and to send its abstract (not more than 300 words) by June 20, 2011 to the Conference address ([pacc2011conference@gmail.com](mailto:pacc2011conference@gmail.com)). The International Organizing Committee reserves the right to separate all presentations to oral or poster.

Let us to know about necessity to get an official invitation letter and visa support for you.

The short supplementary information on the themes of Section 3 "Research of opportunities for climate stabilization using new technologies" is attached herein.

With Best Regards,

Yuri A. Izrael  
Co-Chair of Section 3,  
Academician of Russian Academy of Science
